

Communication

Date	01 JULY 2026
Team ID	XXXXXX
Project Name	HUMAN INDEX DEVELOPMENT(HDI)
Maximum Marks	1 Mark

Communication Plan:

Effective communication played a vital role in the successful development of the HDI Predictor System. Throughout the project lifecycle, regular discussions, progress reviews, issue tracking, and mentor interactions helped ensure timely completion of project milestones. Communication was maintained through online collaboration tools to coordinate development activities, resolve technical issues, and prepare for the final project demonstration.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Google Meet / WhatsApp	DVL Raghava, D. Niharika Tejaswi	Discuss daily tasks and assign work.
2	Progress Update	Weekly	Google Meet	DVL Raghava, D. Niharika Tejaswi	Review project progress and milestone completion.
3	Issue / Bug Discussion	As Needed	WhatsApp / GitHub	DVL Raghava, D. Niharika Tejaswi	Resolve coding, integration, and debugging issues.
4	Stakeholder Review	Bi-Weekly	Google Meet	DVL Raghava, D. Niharika Tejaswi	Receive feedback and validate project development.
5	Final Demo Rehearsal	Once	Google Meet	DVL Raghava, D. Niharika Tejaswi	Practice the final project presentation and demonstration.
6	Source Code Management	Continuous	GitHub	DVL Raghava, D. Niharika Tejaswi	Manage source code, documentation, and version control.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Integrating the React frontend with the Flask backend	Configured Axios API communication, enabled Flask CORS, and successfully verified REST API integration.
2	Selecting the most accurate Machine Learning model	Compared Linear Regression, Decision Tree, Random Forest, and Gradient Boosting models. Selected Gradient Boosting Regressor with $R^2 =$

		0.9856.
3	Organizing project files and maintaining version control	Structured the project into backend, frontend, dataset, models, screenshots, and documentation folders, and managed updates using Git and GitHub.
