

Demonstration of Proposed Features

Date	01 JULY 2026
Team ID	XXXXXX
Project Name	HUMAN DEVELOPMENT INDEX(HDI)
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document summarizes the key features proposed during the planning phase of the HDI Predictor System and records their implementation status. It demonstrates that the proposed functionalities were successfully developed, tested, and integrated into the final application.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrate d (Yes / No)	Remarks
1	HDI Prediction	Predicts the Human Development Index using Machine Learning based on user inputs.	Implemented	Yes	Successfully integrated using Gradient Boosting Regressor.
2	Interactive Dashboard	Displays prediction results, statistics, and visual insights through a responsive React interface.	Implemented	Yes	Fully functional with premium UI components.
3	REST API Integration	Connects the React frontend with the Flask backend through Axios for real-time predictions.	Implemented	Yes	Successfully tested with multiple prediction requests.
4	Data Visualization	Displays HDI score using a gauge chart along with AI insights and prediction history.	Implemented	Yes	Dynamic visualization updates after each prediction.
5	Input Validation & Error Handling	Validates user inputs and handles invalid requests with appropriate error messages.	Implemented	Yes	Backend and frontend validation completed successfully.
6	Export	Allows users to export	Implemented	Yes	CSV and PDF

	Functionality	prediction history as CSV and PDF reports.			exports verified successfully.
